

# Como descargar e instalar Anaconda

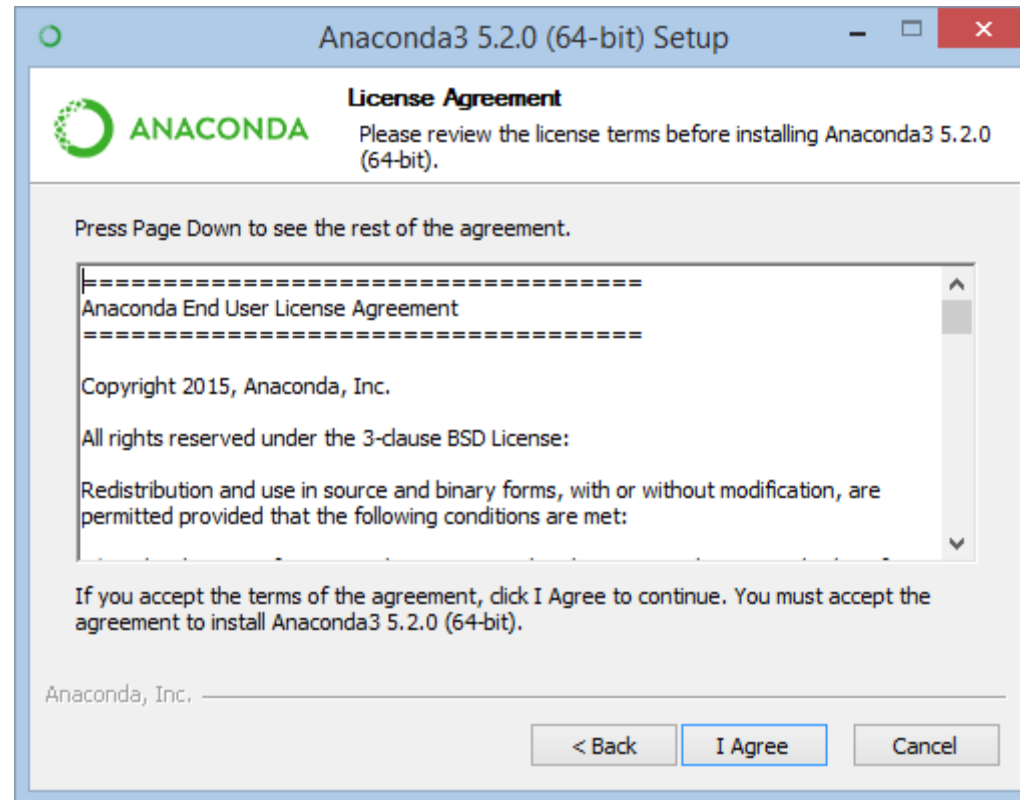

Visitamos el sitio:  
<https://www.anaconda.com/download/>

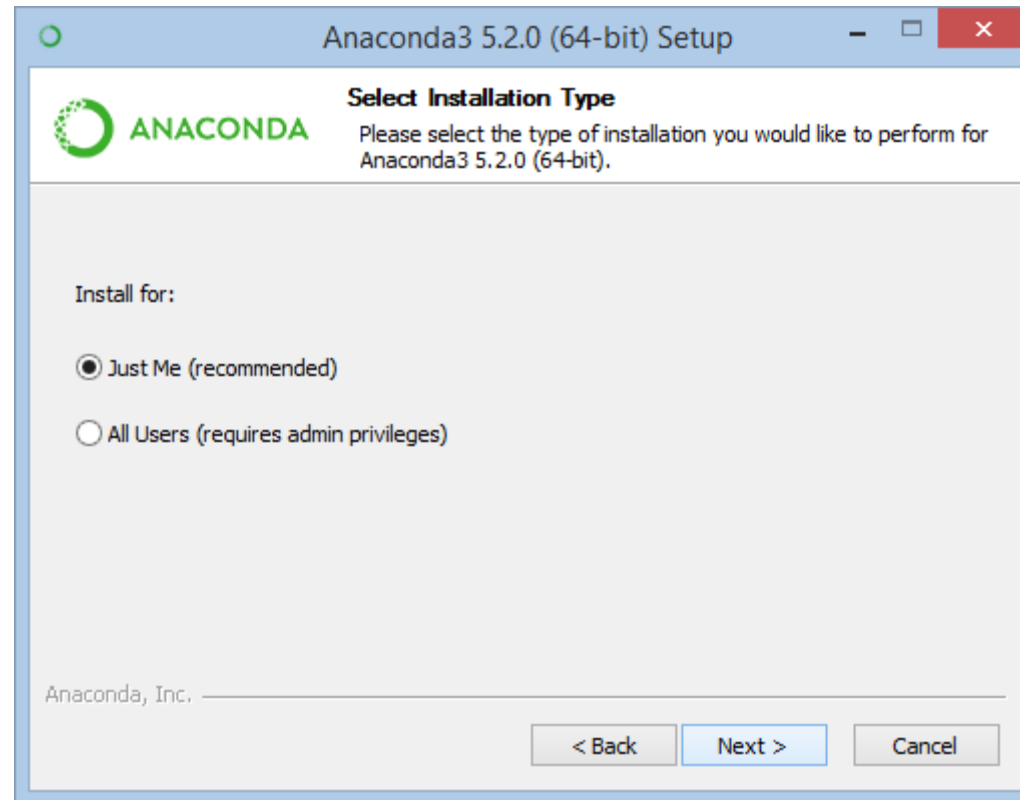

Damos doble-click en el archivo descargado;  
Click en Next

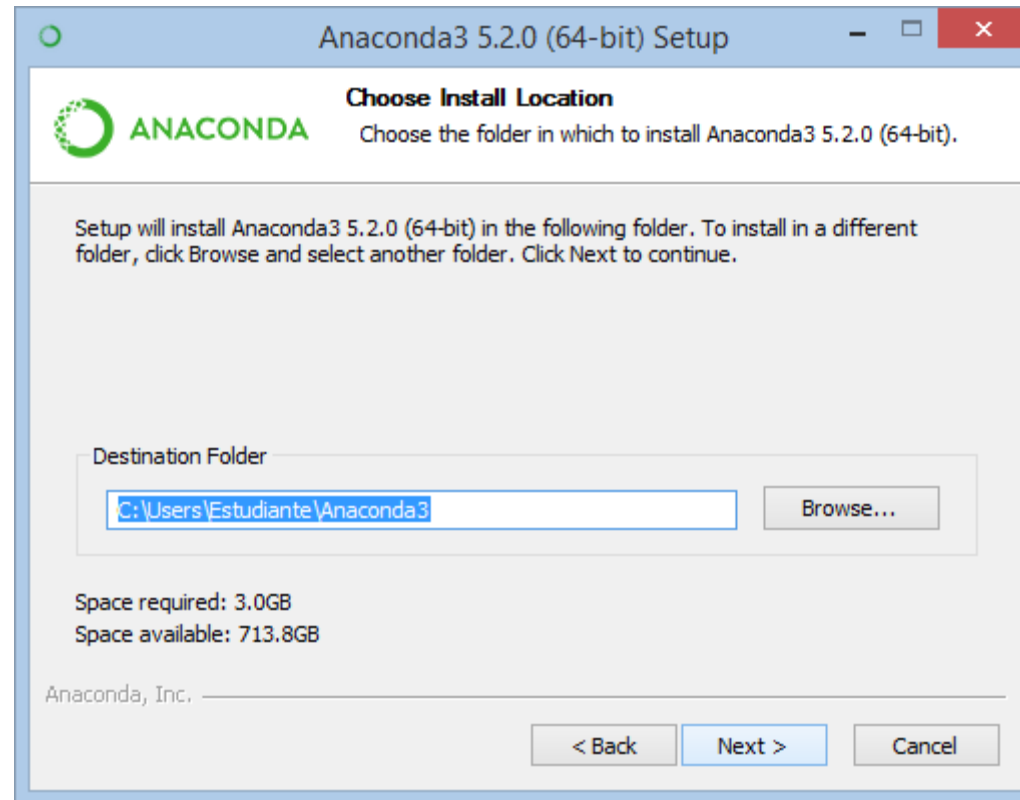

# Click en I Agree

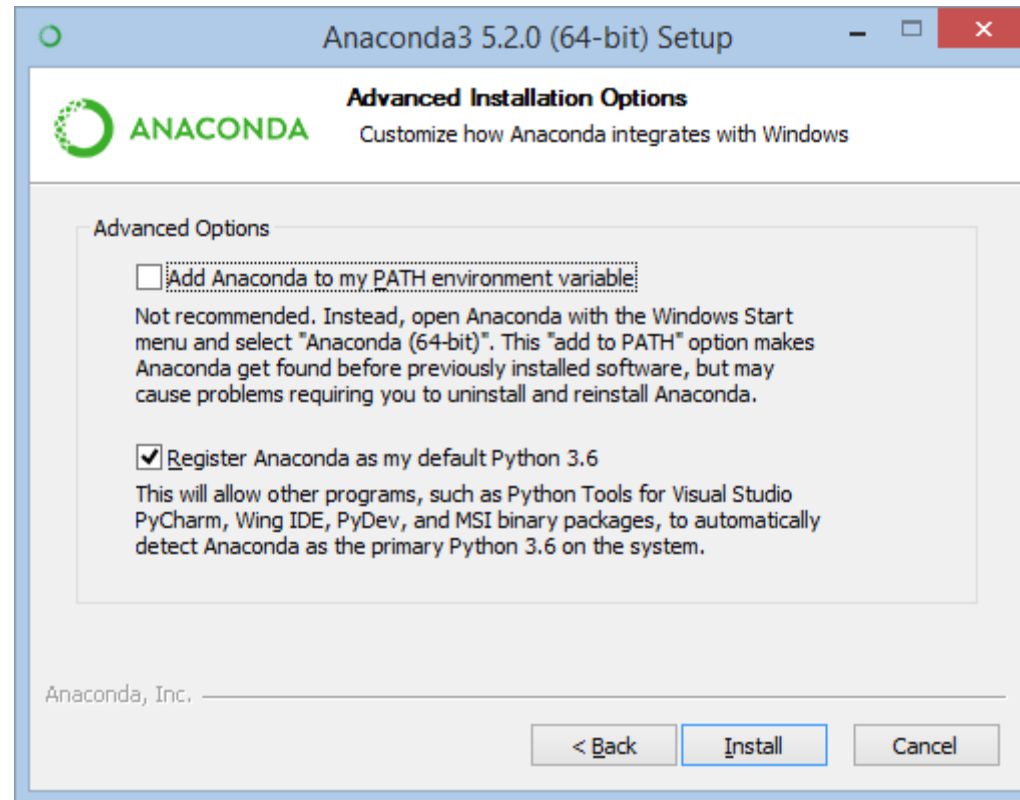

# Click en Just Me

# Click en Next

# Click en Install

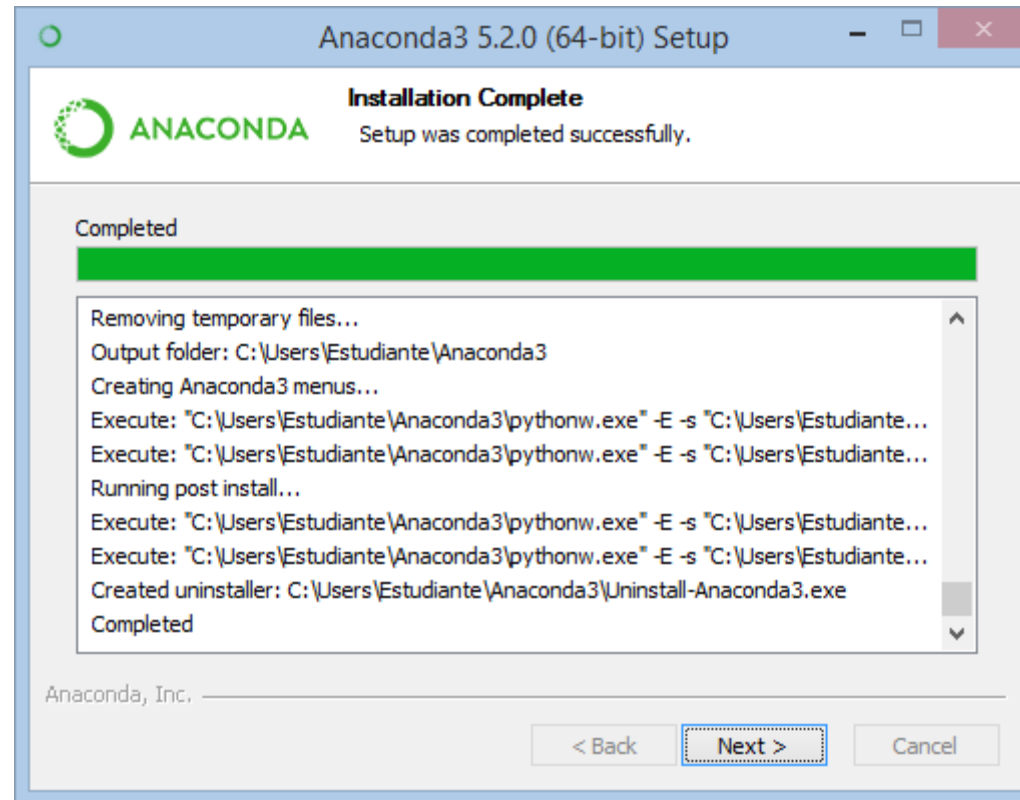

# Esperar durante la instalación

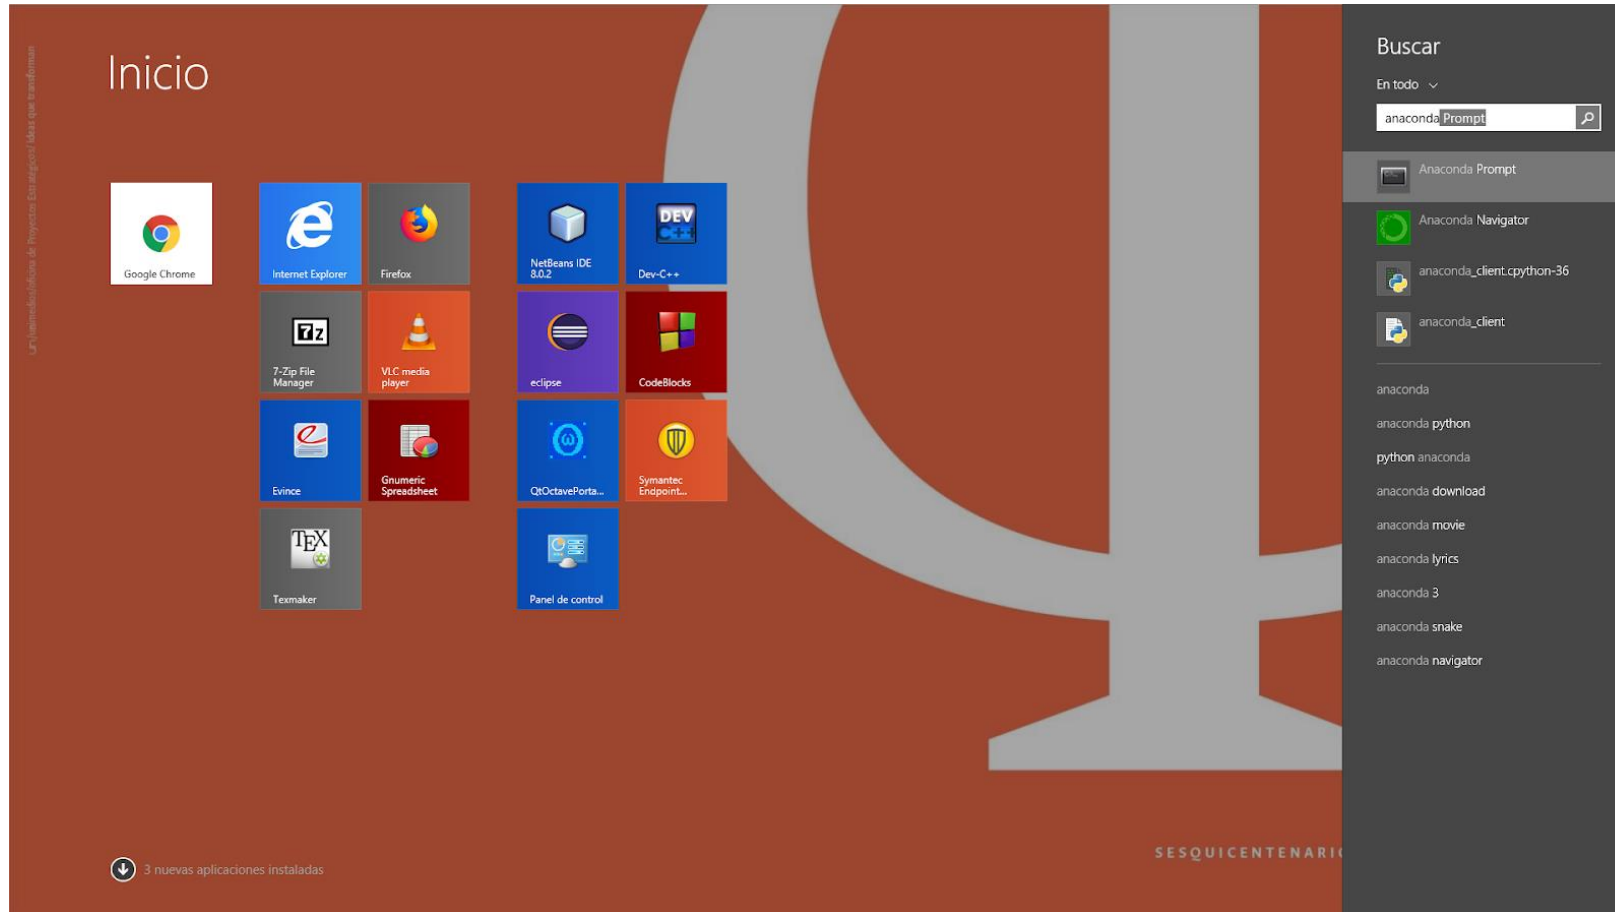

# Click en Next para finalizar la instalación

# Click en Skip

# Tecla de Windows y escriben “Anaconda” + Enter

Se abre una ventana como la siguiente:

Escriben “jupyter notebook”

```
<base> C:\Users\Estudiante>jupyter notebook
```

The image shows a Windows command prompt window with a light blue title bar that reads "jupyter notebook". The window contains a black terminal area with white text. The prompt is "<base> C:\Users\Estudiante>" and the command "jupyter notebook" has been entered. A small white cursor is visible on the line below the command. The window has standard Windows window controls (minimize, maximize, close) in the top right corner.

# Finalmente se abre en el navegador:
